2016 - 2017

Secondary School Of Certificate (9.7%)

Project

Todos Application   project1_link

Technologies used : HTML, CSS, JS, Bootstrap

A robust task tracking system with CRUD capabilities, crafted to simplify task management.

- Designed with HTML, CSS and Bootstrap to ensure a user-friendly interface for managing tasks.
- Dynamic UI updates through JavaScript event listeners and DOM operations for seamless CRUD operations.
- Secure task persistence through local storage methods, ensuring that tasks are never lost.

Chatbot   project2_link

Technologies used : HTML, CSS, JS, Bootstrap

A friendly Chatbot application developed to engage with users by offering personalized responses.

- Interactions between the user and the chatbot displayed in a user-friendly UI using HTML, CSS and Bootstrap.
- Dynamic display of user input and chatbot responses achieved through JavaScript DOM operations and Array methods.
- User inputs processed and filtered to offer relevant responses from the chatbot's predefined list of answers.

Conference Website

project3_link

Technologies used : HTML, CSS, Bootstrap

Created an event website displaying essential conference details such as participant numbers, workshops, keynote speakers, and countries represented, as well as a post-event video.

- Designed a mobile-compatible layout using diverse HTML components and CSS3 styling properties like background, flex, and CSS box model attributes.
- Integrated conference footage using Bootstrap's embed functionality.
